#startupindia

- The NITI Aayog, with a visionary commitment to shaping India's future, has instituted the Atal Innovation Mission to nurture, empower, and strengthen a vibrant ecosystem of innovation and entrepreneurship across the nation.
- School Principals serve as the strategic catalysts at the grassroots, whose vision, prudence, and leadership are pivotal in transforming the aspirations of the Atal Innovation Mission into tangible realities within the education ecosystem.

The National Principal Conclave stands as a purposeful and visionary initiative to bridge ideas, align efforts, and create meaningful convergence toward the ambitious vision of Startup India Buildathon 2047. It brings together the collective strength, insight, and commitment of Atal School Incharges, Atal MOCs, RMOCs, and the esteemed officials of NITI Aayog, fostering a unified platform to translate innovation into impactful national progress.

# Meet the Organiser

Start-Up India Buildathon 2047 – National Principal Conclave is organized by **DTEPL India (Decisiontree Endeavour Private Limited)** in a strategic collaboration with the **Atal Innovation Mission (AIM)**, **IIMT Group of Colleges**, and the **Indian Economic Studies Corporate Sustainability and Social Responsibility (IESCSSR)**. As a premier global forum, this event is dedicated to the mission to **reimagine education for a sustainable, tech-enabled, and inclusive future**. By bridging the gap between academia and industry, the organizers bring together a distinguished assembly of visionary school leaders, higher education professionals, and industry experts to drive meaningful change in the global educational landscape.

## Our Core Values

- Innovation First
- Collaboration & Growth
- Knowledge Sharing
- Excellence-Driven

## About Start-Up India School Principal Conclave – Buildathon 2047

The **Start-Up India School Principal Conclave – Buildathon 2047** is a transformative national platform that unites visionary school leaders, higher education experts, and industry pioneers to reimagine entrepreneurial education in India.

This conclave is a clarion call to bridge the widening gap between school education, higher education, and industry demands, empowering students to emerge as skilled innovators, job creators, and proud contributors to India's ascent as a global economic powerhouse by 2047.

In an era of rapid technological disruption, automation, and shifting global economies, traditional education alone is no longer sufficient. India's youth bulge is both an opportunity and a challenge:

- Millions of students enter the workforce each year, yet many lack the entrepreneurial mindset, practical skills, and industry exposure needed to thrive.
- A stark mismatch exists between academic learning and real-world requirements—evident in high youth unemployment and underemployment rates.
- Emerging sectors like AI, green energy, health-tech, and digital economy demand creative problem-solvers, not just degree-holders.

The National Education Policy 2020 and Start-Up India vision emphasise experiential learning and innovation, yet implementation at school level remains fragmented.

The **Buildathon 2047 Principal Conclave** addresses this critical need by equipping school leaders with knowledge, networks, and tools to cultivate entrepreneurship from the foundational years—ensuring no child is left behind in India's journey to Viksit Bharat.

### Roadmap to Achieve Buildathon 2047 Vision

A clear, actionable roadmap for schools to embed innovation and entrepreneurship:

Keynotes | Policy Dialogues | Global Best Practices

# Prestigious Award Categories Investments | Collaborations | Connections

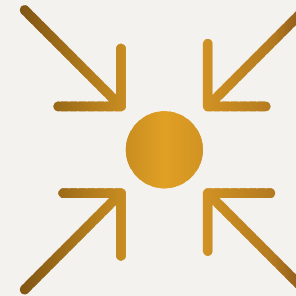

# Thematic Tracks

School Education | Higher Education | Edtech

## In Focus

- Future-Ready Classrooms
- AI & Digital Transformation in Education
- Education Policy, Investment & Internationalisation
- Skills, Employability & Edtech Innovation
- Evolving Education Leadership
- Industry Collaboration and Partnerships

## Who Should Attend?

- Education Ministers & Government Officials
- University & School Leaders
- Edtech Startups & Solution Providers
- Corporate HR, CSR, and Skilling Leaders
- Policy Think Tanks & Researchers
- Investors & Venture Capitalists

## Key Focus Areas & Sessions

**Entrepreneurship in School Education** Integrating creativity, critical thinking, problem-solving, and industry-ready mindsets.

**Start-Up India Buildathon 2047 Framework** Structure, stages, innovation challenges, evaluation, and mentorship pathways.

**Building School Innovation Ecosystems** Establishing clubs, structured mentorship, and pathways to higher education /start-ups.

**Government Programs, Policies & Institutional Support** Leveraging NEP 2020, Start-Up India, Atal Innovation Mission, and incubation networks.

**Showcase of Best Practices** Celebrating school-led start-ups, case studies, and replicable models with real impact.

This conclave is not just an event—it is a clarion call to bridge the widening gap between school education, higher education, and industry demands, empowering students to emerge as skilled innovators, job creators, and proud contributors to India's ascent as a global economic powerhouse by 2047. The **Start-Up India School Principal Conclave – Buildathon 2047** is a transformative national platform that unites visionary school leaders, higher education experts, and industry pioneers to reimagine entrepreneurial education in India.

The **Buildathon 2047 Principal Conclave** addresses this critical need by equipping school leaders with knowledge, networks, and tools to cultivate entrepreneurship from the foundational years—ensuring no child is left behind in India's journey to Viksit Bharat.

### **Roadmap to Achieve Buildathon 2047 Vision**

A clear, actionable roadmap for schools to embed innovation and entrepreneurship:

**Awareness & Orientation** – Introduce principals to the Buildathon framework and national policies.

**Capacity Building** – Train leaders to establish innovation clubs, mentorship programs, and industry linkages.

**Implementation Phase** – Guide schools in forming student teams, identifying real-world problems, and developing prototypes.

**Competition & Exposure** – Participate in regional and national Buildathon stages with industry mentoring.

**Scaling & Sustainability** – Create lasting ecosystems through incubation partnerships and policy integration.

**Measurement & Recognition** – Track outcomes and showcase replicable models.
